

COMBINED NOTICE OF PRIVACY PRACTICES

NOTICE EFFECTIVE DATE: NOVEMBER 1, 2025

YOUR INFORMATION. YOUR RIGHTS. OUR RESPONSIBILITIES.

*This notice describes how medical information about you may be used and disclosed and how you can get access to this information. **Please review it carefully!***

ABOUT THIS COMBINED NOTICE

This Notice explains how Haven Health Management and its affiliated facilities protect, use, and share your health information. It applies to all **Protected Health Information (PHI)** we create or maintain about you — whether it is written, spoken, or stored electronically.

You will receive a copy of this Notice when you begin services, and you will be asked to sign an acknowledgment confirming that you received it. Copies of this Notice are also available in facility common areas, included in the Client Handbook, and posted on our website. You may request another copy at any time.

UNDERSTANDING YOUR PROTECTED HEALTH INFORMATION

Each time you receive care or services, your provider documents information about your visit. This documentation, called your Protected Health Information (PHI) or medical record, includes details about your diagnosis, treatment, and care. Your medical record serves several important purposes:

- It helps plan and coordinate your treatment and care.
- It allows communication among your healthcare providers.
- It provides a legal record of the care you received.
- It supports billing and payment for services.

Understanding how your health information is used helps you make informed decisions about your privacy and about when and how your information may be shared with others. We will only use or share your information as described in this Notice or as required by law. Any other use

or disclosure will require your written authorization. When your health information is shared, we follow the “**minimum necessary**” **standard**, meaning we only share the smallest amount of information needed to fulfill the purpose, and nothing more.

OTHER USES OF YOUR HEALTH INFORMATION

Other uses and disclosures of your Protected Health Information that are not covered in this notice will be made only with your written authorization. If you provide us with your written authorization, you may revoke that authorization at any time in writing and we will no longer use or share any of your health information subject to the authorization. However, the revocation will not apply to disclosures previously made with your permission.

PARTICULARLY SENSITIVE CONDITIONS

Some types of health information receive extra protection under certain state and federal laws. For example, records related to mental health treatment, HIV/AIDS status, or genetic testing may be handled differently from other health information. When these additional laws apply, Haven Health Management will obtain your written permission before sharing this information, except in situations where disclosure is required or allowed by law.

CONFIDENTIALITY OF SUBSTANCE USE DISORDER TREATMENT RECORDS

The “Notice of Privacy Practices for Substance Use Disorder Treatment,” supplements this HIPAA Notice and provides details on our privacy practices required by federal law (42 C.F.R. Part 2). Federal law protects your health information in two ways:

- The HIPAA Privacy Rule protects all of your medical records.
- 42 CFR Part 2 gives extra protection to information about substance use disorder treatment.

This notice explains your privacy rights and how we may use or share your information under both laws. In all cases, your information will only be shared as the law allows — and when the stricter rule applies, we will always follow the one that provides you with the most protection.

THE ROLE OF STATE AND FEDERAL LAWS IN SAFEGUARDING PRIVACY

Some states have additional privacy protections for substance abuse and mental health treatment

records, HIV, and genetic information. We will use and share your health information only as allowed by federal and state law. These laws require us to maintain the privacy and security of your medical information and to explain clearly how we handle and protect it.

When both federal and state privacy laws apply, and a state law provides greater protection or broader rights regarding your information we will follow the more protective state law. In this Notice we identify certain state-specific requirements. Those Haven Health facilities located in those states will comply with the stricter standards.
